Subject: Fw: Need Trending on DRG 064

Dave – Let me know if you need any additional information to provide the data extract. I'll need data from 2000 to present.

Todd is looking to review something by tomorrow so the sooner you can provide the better. Really appreciate your help!

Regards,

Susan Associate

Working on it... Our tables don't have a unique column for severity level. It's tagged on the end of the DRG. For example, if it's severity level 1, the DRG will be 0641. If it's severity level 2, it will be 0642.

Should send something soon...
